

WNYCC Evaluation Summary

The following is a summary of all participant evaluations from the 5-2-08 WNYCC meeting.

Number of participants: 72

Number of evaluations filled out: 49

Please check the appropriate box	Yes	No	N/A**
1. The information presented in this meeting was helpful.	49	0	0
2. I have a better understanding of the New York State Comprehensive Cancer Control Plan	48	0	1
3. I think the Western New York Cancer Coalition effort should continue	49	0	0
4. I am interested in being involved in this work as it continues	46	1	2
5. The organization I represent should be involved in this effort 5a. If so, who should be the contact? (name, phone below please) <ul style="list-style-type: none"> • Dr. John Fudyma; Seneca Nation HD, 716-945-1700 • Western New York Chapter Oncology Nursing Society (WNYONS) + RPCI • N. SONI- 372-1046 • Gina Fedele- 601-3917 • Mary Beth Buck- 716-532-8223 x5075 • Erin Gaken (Hospice Chautauqua Cty) 753-5383 • Shauna Anderson (Hospice Chautauqua Cty) 753-5383 • Kate O'Stricker- Cornell Coop Ext- 699-2377 x122 • Deb Nichols- Catt Cty HD- 716-701-3383 • Dean Jean Brown- UB School of Nursing (SON)- 829-2210 • Ann Morse Abdella- Chaut Cty Hlth Network- 664-8445 	41	1	7
6. I am interested in taking a leadership role in some aspect of this effort	16	18	15

**N/A= No Answer

7. Please list other individuals and organizations that should be included in this effort:

- Dr Deborah Erwin- Office of Health Disparities @ RPCI (2x's)
- I am a solo family practice physician Kaleida based. I would think Kaleida should be involved as a major provider. How can I assist?- Ruth Johnson MD 937-6743
- Buffalo Medical Group, UBMD, Lifetime Health Medical Group, Erie Cty Med Society
- Chambers of Commerce
- Do we have any dentists on board?
- Insurance reps?
- Diabetes and Healthy Heart reps?
- Tobacco control reps?
- Rural Health care?
- Consumers?
- Survivors
- Northern Appalachia Cancer Network
- Robyn Lally-PhD RN UB SON

- Suzanne Dickerson- RN UB SON
- Lorelee Sessans- RN UB SON
- Tory Irgang CCHN- 664-8445
- Partners for Prevention coalition
- Brooks Memorial & WCA hospitals CA registry staff
- State Senator- Cathy Young
- WNY-R-AHEC (? Oakley)
- Rural Health Networks
- Jim Moor- Bogoni Ctr- St Bonaventure University
- Oishei Foundation- Paul Hogan- disparities work
- P2 collaborative- Shelley Hirshberg
- DEC & Co. Environmental Health Divisions
- Tom Rosenthal- UB Fam Med
- HANYS/WNY HC Assoc
- Migrant workers health
- When we look at comprehensive care, study from '04 in Mayo Clinic Phase 1 clinical trials showed 85% cancer patients involved used complementary medicine. WNY coalition does not mention or seem to consider this as part of care. If we truly are being comprehensive, we need to look at what the patient/consumer is using or asking for.
- NYS Medicaid Representative

8. Please rank the top three areas of cancer control that you believe this coalition should focus:

****Not everyone ranked appropriately****

Area of focus for coalition:	Total	Ranked #1	Ranked #2	Ranked #3
Health Promotion/ Disease Prevention	32	11	2	2
Early Detection	33	3	8	2
Treatment	12	1	3	4
Quality of Life	10	0	1	1
Palliative Care	7	0	1	2
Health Personnel	7	2	1	0
Research	11	1	1	4
Data and Surveillance	8	0	0	2
Public Policy	13	0	1	1
Other: disparities	1	0	0	0

9. Please check the areas of cancer control that you have the most interest in:

Area of most interest to participants:	Total
Health Promotion/ Disease Prevention	33
Early Detection	32
Treatment	14
Quality of Life	16
Palliative Care	10
Health Personnel	4
Research	9
Data and Surveillance	7
Public Policy	12
Other: disparities, survivorship, grant availability	3

10. Did you detect any bias towards a commercial product or service during this activity?

ALL SAID NO

11. What other comments do you have about today's meeting?

- Access to care and tools and resources was great
- We need more minority @ the table
- I particularly benefited from the following presenters: Dr. Edge, Ms. Clarke, Ms. Widman
- I am interested in access to clinical trials
- Great to learn about the programs and various potential partners in our effort to continue to improve cancer care
- Exploring more funding for uninsured, to help w/financial stress of day to day living
- A good beginning to increasing service provider awareness
- May want to allow more time, as some speakers projected a sense of urgency
- Education across the continuum needs to be paramount
- It's was great! We need help w/transportation and support groups!
- Nice location- good speakers-great networking!
- Nice location, not too far to travel, a little early for start, but understandable in trying to have physicians attend
- Great conference! Well job done by all!
- Lots of energy, good networking
- Excellent speakers, well organized, highly motivated and focused!!
- Very good!
- Great venue to kick this off- I would love to have Dr. Edge's ppt for ref if possible?
- Very informative
- Great job!

- Good networking opportunities! Great “steering” of meeting by Dr. Rajput and gently connecting people interested in the same issues.
- Speakers were outstanding!
- Facility was beautiful!
- Thank you for the opportunity to attend. I would love to see more MD’s speaking and working with natural medicine providers, so patients don’t have to be caught in the middle. Also acceptance is an issue both for conventional cancer, as well as, natural medicine. I would love to see our cancer centers incorporating Integrative medical care for our WNY (like Cancer Treatment Centers of America). Also for low-income patients to create integrative community clinics in their neighborhoods.
- Informative, didn’t know this existed before today
- Good turnout, collaboration between organizations a plus
- Awesome planning! Congratulations on a great meeting and I look forward to hearing about next steps!
